

Hyunseok Hong

KAIST Computer Science undergraduate — I build web products people actually use.

contact@hyunseok.dev · github.com/ding-modding · hyunseok.dev · Daejeon, South Korea

EXPERIENCE

Research Intern — KIXLAB, KAIST Interaction Lab

Dec 2025 - Mar 2026

- Joined VideoVerse — research on automatic cognitive-load analysis and adaptive editing of educational video for learners with intellectual disabilities.
- Co-designed and built, with my mentor, the CCTM framework (per-segment cognitive-complexity scoring via a Gemini VLM) and the multi-stage pipeline that derives editing operations matched to each learner's ability gap.
- Owned the SAM / YOLO object tracking-and-removal pipeline; contributed through the user-evaluation protocol design stage.

PM & Lead Developer — Timeschool · Mad on

Aug 2024 - Present

- Built and operate Timeschool, a night-study management web platform; signed a service contract with Incheon Jinsan Science High School, running 3 years.
- Led the Node.js backend and contributed the React/Vite frontend; iterated each semester on user feedback.

PROJECTS

Teamplo — Founder

teamplo.com

- A leader-run team dashboard that pulls scattered group-chat task assignments into one view.
- Pivoted from a personal to-do app to a leader-first tool after P0 user interviews.
- Shipped v0→v3→v4 in 5 weeks — swapped a hand-rolled merge for Yjs CRDT, migrated the editor from a textarea to CodeMirror 6.
- Built throughout with Claude Code — migration-scale work in a day.

Next.js · Postgres · Yjs · CodeMirror 6

MatchA — Core Developer

matchall.co.kr

Group scheduling: a workspace that organizes groups and calendars like folders, with time-voting and When2Meet-style coordination.

Next.js · Vercel

EDUCATION

KAIST — School of Computing, B.S. in Computer Science

Feb 2024 - Present

GPA 3.96 / 4.3 (82 credits) · Dean's List (1st & 2nd semester)

Incheon Jinsan Science High School — early graduation

Mar 2022 - Feb 2024

SKILLS

Languages C, C++, C#, Python, Java, TypeScript, JavaScript

Frameworks & Tools React, Next.js, Node.js, Tailwind CSS, PyTorch

Workflow AI-assisted development (Claude Code, Codex)

HONORS & AWARDS

2023 Korean Olympiad in Informatics (KOI) — Silver, 12th nationally (high-school division)

2022 Korean Olympiad in Informatics (KOI) — Bronze (high-school division)

2025 NYPC Code Battle — top 4.87%

2024 KAIST President's Award · KAIST Presidential Fellowship (scholarship)

2023 ICT Award Korea — Grand Prize · Incheon Science Exhibition — award

2022 CPS (Creative Problem Solving) Festival — Grand Prize

OPEN SOURCE

gbrain (github.com/garrytan/gbrain, 17.8k★) — diagnosed why the OAuth public-client flow didn't follow the PKCE + RFC 7591 standards, causing auth failures for some clients; fix PR merged in v0.34.1.0.

WRITING

Dev log at hyunseok.dev/log — dated build notes. Latest: "Teamplo — Dev Log," a phase-by-phase account of shipping v0→v4 in 5 weeks with Claude Code.
